

SUBLIME WORKS

Sublime Works is a company specializing in the assembly, installation and technical maintenance of all types of construction structures in Andorra and Cerdanya.

Our team brings together professionals with extensive experience in new construction, renovation and projects of high technical demand, always working with standards of quality, safety and precision.

We have our own teams, specific tools and the logistical capacity to intervene in projects of any scale, both in urban environments and in hard-to-reach locations.

Assembly of structures

We guarantee precise execution, meeting tolerances and regulations, and ensuring perfect integration with the rest of the project.

We carry out the complete assembly of structures of various materials and types, including:

- Technical wood and CLT structures
- Metal structures
- Prefabricated structures
- Modular systems
- Special structural elements and customized solutions

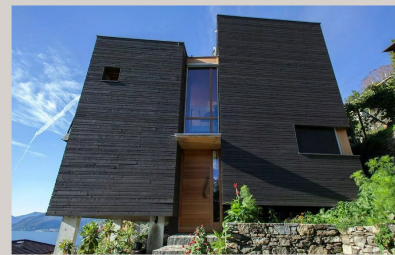

Construction and repair of roofs

We work with pitched, flat, ventilated roofs and high energy efficiency systems.

We specialize in:

- Installation of new roofs
- Repairs for leaks, wear and tear or structural damage
- Replacement of obsolete materials
- Installation of waterproofing and insulation systems
- Annual or one-off maintenance

Installation and rehabilitation of facades

Our goal is to ensure aesthetics, durability, and energy efficiency in every project.

We offer solutions in:

- Ventilated facades
- Technical and decorative coatings
- Repair of pathologies (cracks, detachments, dampness)
- Replacement of panels and finishes
- External thermal insulation (ETICS)

Why choose Sublime Works?

01 /  
Multidisciplinary experience in structures, roofs and facades.

02 /  
Our own specialized and trained teams.

03 /  
Commitment to safety and quality in all phases of execution.

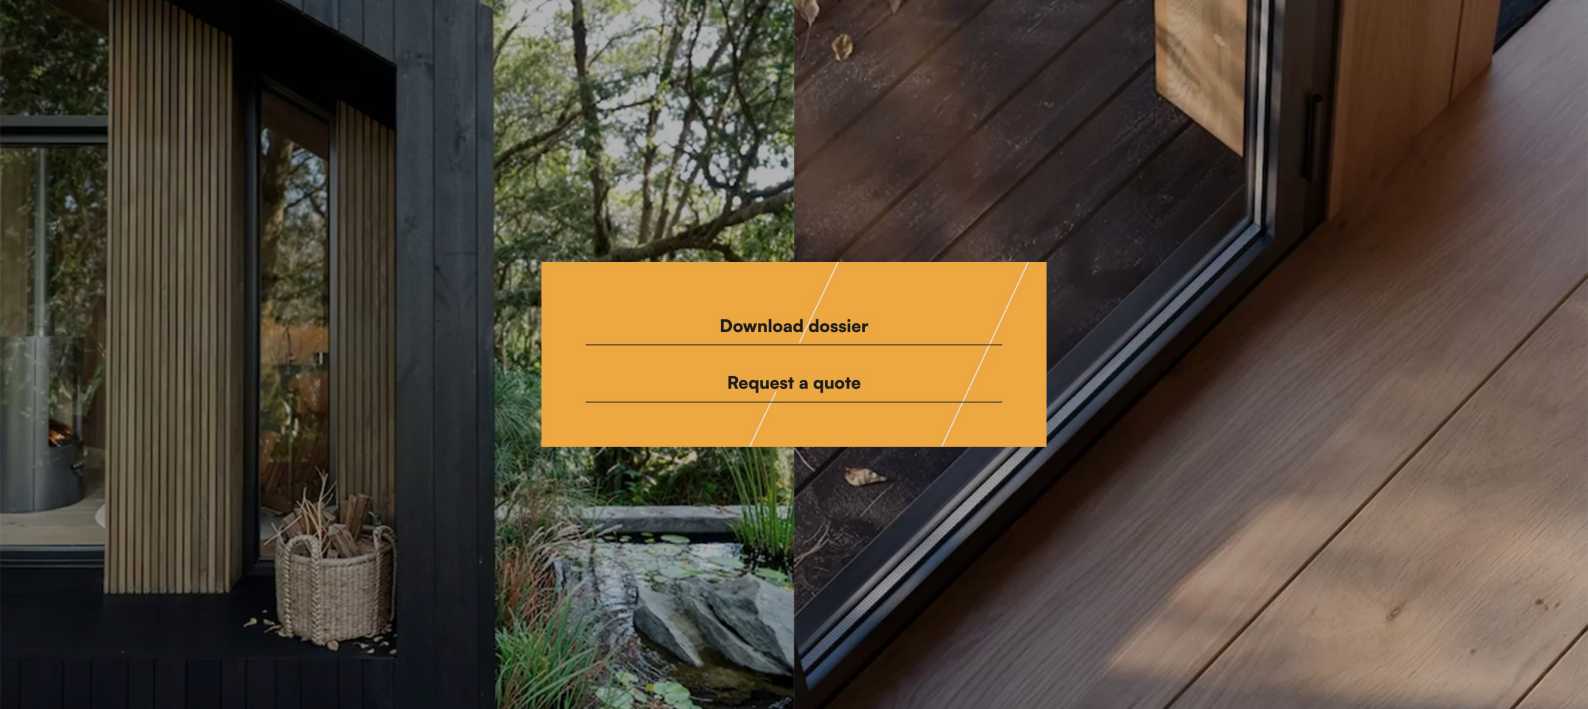

04 /  
Speed, precision and adaptability to any construction environment.

05 /  
Technical support before, during and after the project.

Commitment to the customer

At Sublime Works, we operate with a clear philosophy: to offer robust, efficient, and long-lasting solutions. Our goal is to become the leading assembly and technical support team for architects, builders, and developers.
